

# BETELCHLOR 65

## Technical Information

### CHLORINATED ALKALINE DISINFECTANT DETERGENT.

#### DESCRIPTION

BETELCHLOR 65 is a highly alkaline foaming disinfectant detergent, with high oxidising power and an efficient biocidal action. Without phosphates or silicates, which avoids leaving white marks following use.

#### METHOD OF USE

BETELCHLOR 65 is used diluted in water at doses between 2% and 5% (% w/w), depending on the method of application; foam spray or immersion. Surfaces should be rinsed with water, preferably hot and under pressure.

A minimum contact time of 15 minutes is recommended. After every use it is necessary to rinse all surfaces that may come into direct contact with food.

Always follow any instructions given by the Customer Service Department for any application; always refer to the hygiene plan in place.

#### SUITABILITY

BETELCHLOR 65 is suitable for use on stainless steel surfaces following normal usage conditions.

When using on other surfaces it is recommended that you first undertake a corrosion test in a small sample area.

#### BIOCIDAL ACTION

The bactericidal capacity has been demonstrated in tests conducted in accordance with UNE-EN 13697 regulations by an accredited laboratory, exceeding the norm against microorganisms *Escherichia coli*, *Staphylococcus aureus*, *Enterococcus hirae* and *Pseudomonas aeruginosa*.

The fungicidal capacity has been demonstrated in tests conducted in accordance with UNE-EN 13697 regulations. BELECHLOR 65 exceeds the norm for the microorganisms *Candida albicans* and *Aspergillus niger*.

BELECHLOR 65 is registered for use in food industries in the Ministry of Health Pesticides Register under No. 09-20 / 40-05537HA

#### TECHNICAL CHARACTERISTICS

- Form: Viscous liquid
- Colour: Slightly yellow
- pH<sub>(100%)</sub> 13.5
- Density: 1.290g/ml
- Storage: Store between 5°C - 35°C
- High strength oxidiser with a strong wetting action
- High efficiency Biocide: Bactericide and Fungicide
- Powerful cleaner, degreaser and bleaching agent

#### PACKAGING

Box of 4 x 5 kg bottles.

#### COMPOSITION

Sodium hypochlorite with caustic alkali, containing a mixture of surfactants, sequestrants and wetting agents.

#### PRECAUTIONS

CLP Regulation (EC) n° 1272/2008:

Danger

#### Hazard statements:

Very toxic to aquatic life. Causes severe skin burns and eye damage.

# BETELCHLOR 65

## Technical Information

### CHLORINATED ALKALINE DISINFECTANT DETERGENT.

#### Precautionary statements:

Keep out of reach of children. Do not breathe dust/fume/gas/mist/vapours/spray. Wash thoroughly after use. Avoid release to the environment. Wear protective gloves/protective clothing/eye protection/face protection. Wash contaminated clothing before reuse. Collect spillage. Store locked up. Dispose of the contents/containers in accordance with the current legislation on waste treatment. Contact with acids liberates toxic gas.

In case of accident consult the Medical Toxicology Information Service on 91 562 04 20 (Spain).

PROFESSIONAL USE
