

CITROCIDE PC

Technical Information

HIGH STRENGTH OXIDISING BIOCIDES FOR USE IN THE FOOD INDUSTRY

Areas of Application

Airborne environmental disinfection and contact disinfection of: surfaces, equipment and systems in the food industry.

- Meat processing industry, abattoirs, cutting plants and processing facilities ...
- Fisheries: canning, processing plants ...
- Horticultural: fruit and vegetable plants, canneries ...
- Bottling plants
- Dairy Industry
- Breweries

USES

- Disinfection of floors and walls: washing, spraying.
- Disinfection of surfaces: Spraying, mopping.
- Disinfection of utensils: Immersion, spraying.
- Disinfection of containers: spraying, fogging.
- Disinfection of CIP circuit: circulation.
- Environmental disinfection facilities: spraying, fogging.
- Disinfection of vehicles: Spraying.

METHOD OF USE

For use exclusively by specialised personnel.

- **Dosage:** 0.2% to 3%, depending on the mode of application, contact time and temperature
- **Application:** by immersion, spraying, dipping, brushing, mopping, fogging or misting with the product diluted in water. Before applying this product a thorough cleaning should be performed. Rinse thoroughly with water after each application.
- **Duration of disinfection:** Three hours for air disinfection.

CITROCIDE PC, when used in the recommended concentrations, does not affect the materials. Furthermore, its low pH in solution prevents the formation of biofilm.

PACKAGING

30 kg bottle

TECHNICAL CHARACTERISTICS

Form:	Transparent Liquid
Colour:	Clear.
pH (100%):	1
Density (20°C):	1.12 g/ml

COMPOSITION

Contains among other ingredients: peracetic acid (5%), acetic acid (8%), hydrogen peroxide (25%). carriers, stabilizers and water: qs 100%.

PRECAUTIONS

CLP Regulation (EC) n° 1272/2008:

Danger

Hazard statements:

Harmful if swallowed. Heating may cause a fire. Causes severe skin burns and eye damage. May cause respiratory irritation.

Precautionary statements:

Keep out of reach of children. Take any precaution to avoid mixing with combustibles. Keep away from heat/sparks/open flames/hot surfaces. No smoking. Wash the hands thoroughly after handling. To be used only in the open or in well ventilated areas. Do not breathe the dust/ smoke/ gas/ mist/ vapors/ aerosol. Wear protective gloves/ protective clothing/ eye protection/ face protection. Wash contaminated clothing before reuse. Store in a well ventilated area. Keep the container hermetically sealed. Keep under lock and key. Store at temperatures no higher than those specified by the manufacturer. Keep in a cool place. Dispose of the contents/containers in accordance with the current legislation on waste treatment.

In case of accident consult the Medical Toxicology Information Service on 91 562 04 20 (Spain).

PROFESSIONAL USE
